To all our MAV-clients: The MI&T is NOT the MAV

Dear Clients,
Dear Sir or Madam,

for urgent reasons we would like to announce the following important information:

During the last days a new company named „MI&T Measuring Instruments & Testers“ has been sending e-mails, advertisement and catalogues to our clients. If you have received any of these messages, you have certainly recognized that the corporate identity and the corporate design of the „MI&T Measuring Instruments & Testers“ strongly resembles the appearance of our company, the MAV Prueftechnik GmbH which now exists for nearly 50 years.

We do not want this commercial practice to be misleading to our clients. Therefore we decided to inform you immediately that the „MI&T“ has nothing to do with our company – the companies are not identical. Mr. Dr. Turowsky who appears as the „Managing Director“ of the „MI&T Measuring Instruments & Testers“ has left our company over six months ago in dispute.

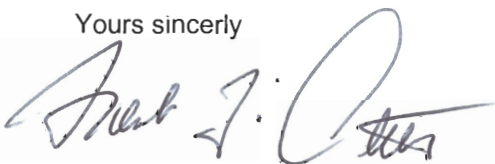

Please excuse, that we can not give you any further details about the people and the intend behind that company right now, but we assure you, that we will do all our best to defend you and our long-established company from any unfair commercial practices.

We have asked our lawyers to go into the merits of the case and to start the necessary legal proceedings. They also pointed out, that the unauthorized privation of a customer data bank or of companies' ideas and products may be punishable and prosecuted according to the German Criminal Code.

In the next days we will take legal actions against the „MI&T Measuring Instruments & Testers“ – we will keep you informed about further developments on our website www.mav-germany.de.

We thank you in advance for you trust. Please refer to Mr. H.-D. Kunze, **e-mail to: mav.gmbh@t-online.de** for further inquiry and to not hesitate to contact us at any time.

Yours sincerely

Horst J. Bittler
Partner, Managing Director
MAV Prueftechnik GmbH
